n.b. Smaller trees can be shipped in their current containers. For larger trees I remove all the soil around the roots with an air spade and ship them bare root.

p.s. The provenance for the origin of these trees can be found in Richard Horan's book, "*Seeds*" published by Harper Collins, 2011, \$14.99. If desired, I can secure an autographed copy of this book and ship it for no extra charge.

All proceeds are donated to the TREE Fund.
