Why you are serving on TREE Fund board? I serve on the TREE Fund board to help leave the world better than I found it by doing what's right for trees and for the next generation of arborists to whom we will entrust their care. By funding tree-related research and education, the TREE Fund contributes more than any other organization toward that end, and there is no better fit for my core values and no better organization into which to direct my energies.

TREE Fund Committees you chair/serve on: Executive Committee, Governance Committee
