

Dan Herms is Vice President of Research and Development for The Davey Tree Expert Company. Prior to joining Davey, Herms served on the faculty in the Department of Entomology at The Ohio State University for 21 years. His research and outreach programs focus on the ecology and management of trees in forests, urban forests, and ornamental landscapes including interactions with insects, soils, and climate. He received his B.S. in landscape horticulture from Ohio State University, his M.S. in horticulture and entomology also from Ohio State University, and his PhD in entomology from Michigan State University. Prior to joining OSU, he worked for 13 years at The Dow Gardens, a public garden in Midland, MI, where he directed their pest management program. Major recognitions for his work include election as Fellow of the American Association for the Advancement of Science and Fellow of the Entomological Society of America.
