

Dan Herms is Vice President of Research and Development for The Davey Tree Expert Company. Prior to joining Davey, Herms was a professor in the Department of Entomology at Ohio State University for 21 years. His research and outreach programs focus on the ecology and management of trees in natural, urban, and community forests, including their interactions with insects, soils, and climate. He received his B.S. in Landscape Horticulture from Ohio State University, M.S. degrees in Horticulture and Entomology from Ohio State University, and a PhD in Entomology from Michigan State University. Prior to joining Ohio State University, he worked for 13 years at The Dow Gardens, a public garden in Midland, MI, where he directed their plant health care program.
