Cultivating Innovation

Suzette Guzman-Brown

Operations and Governance Coordinator, TREE Fund

Suzette joined TREE Fund in March of 2024 and comes to us from The American Cancer Society, where she spent over 10 years as an Operations and Development Coordinator, is a graduate of that organization's Emerging Leaders Development program, and has a Bachelor's degree in business administration. She has a passion for the nonprofit space, as she "wants to leave the world better than I found it" and grew up with an affinity for trees while roaming the forests as a child in her native Tennessee.

In her spare time, she likes to create fused glass art pieces in her home workshop and hiking the trails around her home in the San Diego area. Suzette shares her home with her husband Robert and their 2 cats, Chase and Bubba, who are named after NASCAR drivers.
