Cultivating Innovation

Heath Hupke

Grants and Development Manager, TREE Fund

Heath lives in Iowa with his wife and two children where they have planted over twenty trees including hazelnuts, swamp white oaks and river birches. If they aren't outside building a snowman, playing with chalk or swinging on the playset, they can be found inside reading books and building 'castles' from couch cushions.

Heath loves working with TREE Fund as he gets to learn about new and upcoming research and talking with enthusiastic 'tree nerds' and arborists. He coordinates all TREE Fund Series Webinars which are provided for free throughout the year while also managing both Spring and Fall Grant and Scholarship Cycles.
