

TREE FUND
Cultivating Innovation

Tree Research and Education Endowment Fund 2025 Impact Report

A Note from our President & CEO

Dear TREE Fund Supporters,

Like many US-based nonprofits, in 2025 TREE Fund had a bit of a rollercoaster year – a mostly thrilling ride, with a few dips and loops.

In January, we launched The Davey Tree Expert Company Community Arboriculture Education Grant program, awarding two \$5,000 grants. We celebrated the tenth anniversary of our webinar series, which continues to welcome thousands of viewers from around the globe. We also celebrated the fifteenth anniversary of the Utility Arborist Research Fund, renewing our agreement with Utility Arborist Association, and continuing our conversations on deepening our partnership.

We surpassed \$6 million in grantmaking since our inception and the TREE Fund endowment is above \$6 million as well, demonstrating the power of the endowment model. We also have started a new type of fund for non-academic scholarships for workshops or conferences and worked closely with the Illinois Arborist Association to create the first of these, the Norm Hall Memorial Fund.

In August, 60+ riders (and 16 virtual participants) joined us for the Tour des Trees in Michigan. While we fell slightly shy of our fundraising goal, the ride was a beautiful one, and we had an amazing mix of community engagement, youth, and tree planting events along the way.

In September, at the Trees & Utilities conference, Asplundh announced that, as part of their upcoming centennial celebration, they are committing to fully endowing the Asplundh – Hyland R. Johns Endowed Research Fund. This \$500,000 commitment celebrates the legacy of both Hyland Johns and Asplundh as they look forward to their next 100 years.

Our TREE Fund Board also approved a new Strategic Plan for the next three years, providing direction for our efforts with a focus on three pillars: financial sustainability and development; research and education; and communications and outreach.

The Fall Research Grant Application Cycle had a recent record of 130 applications – more than double the 54 applications received just two years ago. Demand for TREE Fund support is high and these research grant programs are supported by the generosity of our donors and sponsors.

At the Urban and Community Forestry Society conference in November we announced that TREE Fund will be hosting the Urban Forest Foundation and supporting UCFS efforts to grow the fund which provides scholarships for individuals to attend programs like the Municipal Forestry Institute.

There is a sense of anticipation in 2026 with some more exciting announcements, strengthened partnerships, and results from the impactful research that has been supported through recent grantmaking.

Paul Putman, PhD
President & CEO

Strategic Plan 2025-2028

TREE Fund's Board of Trustees approved a new strategic plan through 2028 at the September 2025 meeting. The strategic plan is typically reviewed and revised every three to five years.

TREE Fund Strategic Plan 2025-2028

Mission

TREE Fund supports scientific discovery and dissemination of new knowledge in arboriculture and urban forestry.

Vision

To be a leading force in advancing tree research and education by fostering financial resilience, expanding our audience, and becoming a funding hub for arboricultural knowledge and innovation.

Pillar 1: Financial Sustainability and Development

- Grow the **endowment to \$8 million** by 2028.
- Achieve **operational sustainability** through diversified revenue streams.
- Expand **donor engagement** and planned giving.

Pillar 2: Research and Education

- Host or co-host a major **Research Summit/Symposium in 2028**.
- Produce a comprehensive **Impact Report**.
- Conduct an **Industry Needs Assessment**.

Pillar 3: Communications and Outreach

- **Expand our audience** while keeping core audience engaged.
- **Increase visibility and emotional resonance** of TREE Fund's messaging.
- **Build strategic alliances** with public-facing organizations.

Gaining New Knowledge Through Research Grants

TREE Fund has nine research grant programs that provide grants to various needs within the arboriculture industry.

Endowed grants are funded by income generated from investments based on the size of the principle in each program, creating sustainable grant-making money once a funding level has been met.

John Z. Duling Grant Program

Provides start up or seed funding to support innovative research and technology transfer projects

Jack Kimmel International Grant Program

Provides funding for arboriculture research by applicants working primarily outside of the United States.

Bob Skiera Memorial Fund Building Bridges Initiative and John P. White Grant Program

Supports projects which will help arborists and urban foresters communicate the value of trees and urban forests on a global basis through technology transfer and engagement with developers, builders, civil engineers, city planners, elected officials and other policymakers.

Safe Arborist Techniques Fund Grant Program

Supports original research that creates a safer work environment for people working in the tree care industry and the general public they serve.

Tree and Soil Research Fund Grant Program

Supports projects with research of interest to the landscape architecture community with special focus in the area of trees and soils that support them.

Barborinas Family Fund Grant Program

Supports work with study of the processes of the nursery industry with the focus on root system and above ground structures.

Utility Arborist Research Fund Grant Program

Supports work with real importance and benefit to utility tree care professionals.

Asplundh – Hyland R. Johns Endowed Research Fund Grant Program

Supports research that directly affects the work of industry professionals.

Lucas Tree Experts Integrated Vegetation Management Endowed Research Fund

Supports research in Integrated Vegetation Management (IVM) in the United States and Canada

DID YOU KNOW?

Over 70 volunteers serve on the Research and Education Sub-Committees to help debate and rank the applications for the various grants and scholarships?

Research Grants Awarded in 2025

Over \$6 Million Granted Since 2002!

In 2025, TREE Fund surpassed the \$6 million mark in funding tree research and education through its grant and scholarship programs.

“With approximately \$6 million in our endowment and an equal amount granted out over the years, TREE Fund is a powerful example of how endowment-driven philanthropy can sustain long-term impact.”

- Paul Putman, President & CEO.

2025 Research Grant Recipients

Utility Arborist Research Fund Grant- \$50,000

Melody Mount, University of Tennessee

“Impacts of Accessor Perceptions, Species, and Defects When Performing Tree Risk Assessments.”

John Z. Duling Grant- \$14,745

Brett Fredericksen Jr.

Southern Illinois University- Edwardsville

“Environmental Indicators and Intervention Treatment for Horned Oak Gall Outbreaks on the Common Street Tree *Quercus palustris*.”

treefund.org/researchgrants

Research Grants Awarded in 2025

2025 Research Grant Recipients

Jack Kimmel International Grant- \$10,000

Mohammad A. Rahman

University of Melbourne, Australia

“Traitbased Assessment of Urban Tree Health and Climate Resilience.”

Safe Arborist Techniques Fund Grant- \$15,000

Leonardo Bianchini

University of Tuscia, Department of Agriculture and Forestry Services (Italy)

“Tree Risk During Rigging Operations: Identifying Biomechanical Risk Factors for Arborist Safety – TRIAS.”

Tree and Soil Research Fund Grant- \$10,000

Andrew Milward

Toronto Metropolitan University

“Mitigating Roadsalt Impacts on Urban Trees: Strategic Companion Planting with Native Halophytes.”

Bob Skiera Memorial Fund Building Bridges Initiative and John P. White Grant Program- \$30,000

Luz Piedad Romero Duque

Fundación Jardín Botánico “Joaquín Antonio Uribe” de Medellín (Colombia)

“Beyond the Canopy: Cocreating a Healthier City with Urban Trees.”

Partnership Programs:

State Game Lands Project 33

Norm Hall Memorial Fund

UCFS Urban Forest Foundation

Since 2018, TREE Fund has partnered with Penn State University on State Game Lands Project 33, the longest continuous research study in the world evaluating the ecological effects of vegetation management along utility rights-of-way. Through sponsorship support from Asplundh, Inc., Corteva, FirstEnergy, and PECO, more than \$1,000,000 has been funded through this program, led by Dr. Carolyn Mahan.

In November 2023, Norm Hall of Illinois sadly passed away. His family and friends, together with the Illinois Arborist Association, quickly decided to honor his legacy through an ongoing scholarship to support arborists in their professional development. Once endowed, the Norm Hall Memorial Fund for Education and Training will help working arborists attend workshops, receive hands-on training, and expand their knowledge and skills.

In 2024, TREE Fund partnered with the Urban and Community Forestry Society (UCFS) to support the growth of its endowment. As a charitable public trust, TREE Fund's expertise in fund management and equity growth has helped UCFS expand the resources it uses to support its members' professional growth.

Funding for Education: The Future of our Industry

Education continues to be at the core of TREE Fund's mission. In 2025, we announced a new education grant, The Davey Tree Expert Company Community Arboriculture Education Grant joined the Ohio Chapter Education Grant Program in providing funding for programs that educate the public about the importance of trees and their care.

TREE Fund also has six student scholarship programs providing \$5,000 to undergraduate students who aspire to careers in arboriculture, urban forestry, and related fields. These scholarship programs continue to support the future leaders of our industry!

Education Grants in 2025

Davey Tree Expert Company Community Arboriculture Education Grant Program

Cornell Cooperative Extension of Monroe County (NY) (\$4,985)
"Urban Tree Equity Education and Outreach" program

St. Olaf College (MN) (\$5,000)

"Educating St. Olaf and Carleton College Students on Disease/ Pest Identification, Safe Chainsaw Use, and Tree Care as a Profession" program.

Ohio Chapter ISA Education Grant

Western Reserve Land Conservancy in Ohio (\$5,000)
"Tree Steward Training Program"

Education Grant Spotlight: St. Olaf College

Recipient of a 2025 Davey Tree Expert Company Community Arboriculture Education Grant

Chainsaws and urban tree care are not usually taught at undergraduate liberal arts colleges, such as St. Olaf and Carleton Colleges (Northfield, MN). Funding from The Davey Tree Expert Company Community Arboriculture Education Grant hosted by TREE Fund enabled us to offer training to undergraduates at our two institutions. We had a high degree of interest with over 100 applicants to the program and were able to accept 43 students.

We hosted three separate chainsaw training sessions conducted by Blue Heron Stewardship, with students receiving certificates for SAWW I. Instruction included the basics of chainsaw maintenance and safety, with focus on the most common injuries associated with sawing and PPE. Each student had a chance to fell trees using a plunge cutting technique and were introduced to the basics of bucking limbs.

The tree care session was led by an arborist with Cannon River Tree Care. The instructor gave an overview of his path into tree care and discussed common problems (and diagnostic characters) of trees in our area, such as emerald ash borer, two-lined chestnut borer, and oak wilt, as well as solutions to those problems. Students were shown examples on the St. Olaf campus of root girdling, soil compaction, insect damage and oak wilt. The instructor also demonstrated pruning techniques, guiding the group through how he decides when and how to prune. Many students expressed an interest in more opportunities for hands-on learning and two have graduated and are now working in the tree care industry.

Funding for Education: The Future of our Industry

Robert Felix Memorial Scholarship:

Clayton Mahoney, Abraham Baldwin Agricultural College (GA)

Jackson Wilson, Michigan Tech University

Tyler Stewart, Brigham Young University (UT)

Patience Tongo Fouelefack, College La Cite (Ottawa)

Scholarship Spotlights

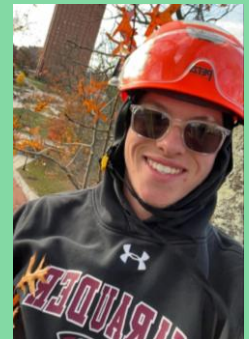

Patience Tongo Fouelefack
College La Cite in Ottawa, Canada
Robert Felix Memorial Scholarship 2025.

Receiving the TREE Fund's scholarship has been one of the most meaningful milestones of my academic journey. As an undergraduate student in Forestry, this support eased a significant financial burden and allowed me to dedicate more time and energy to my studies, field training, and professional development. I am deeply grateful for this investment in my education.

Another rewarding aspect of this year has been interacting with forestry professionals. Their experience, advice, and passion for sustainable forest management have shown me that successful forestry requires much more than technical knowledge. It also requires collaboration, continuous learning, and a commitment to balancing environmental, economic, and social priorities.

Owen McKinley
University of Massachusetts- Amherst
Will Nutter Memorial Scholarship 2025.

I am currently in my second year in the Arboriculture and Community Forest Management program at the Stockbridge School of Agriculture at UMass Amherst. My first year gave me a foundation in arboriculture and confirmed that I had chosen the right field. Now I am excited to move beyond the introductory courses and explore more deeply the science of tree growth, health, structure, and care. I am especially interested in plant health care, soil, pests and diseases, and the ways trees respond to changing conditions.

Arboriculture appeals to me because it brings together biology, judgment, physical skill, and time outdoors. It also requires an understanding of how people relate to the trees in their lives, whether it is a tree remembered from a childhood backyard or one planted to honor a person or mark an important event.

Funding for Education: The Future of our Industry

TREE Fund celebrated 10 years of free webinars in 2025, hosting eight webinars featuring researchers from around the world who previously received TREE Fund research grants.

Attendance records were broken with 7,273 attendees to the webinar series.

Additionally, 6,432 CEUs were shared with ISA for credits towards Certified Arborists' certifications.

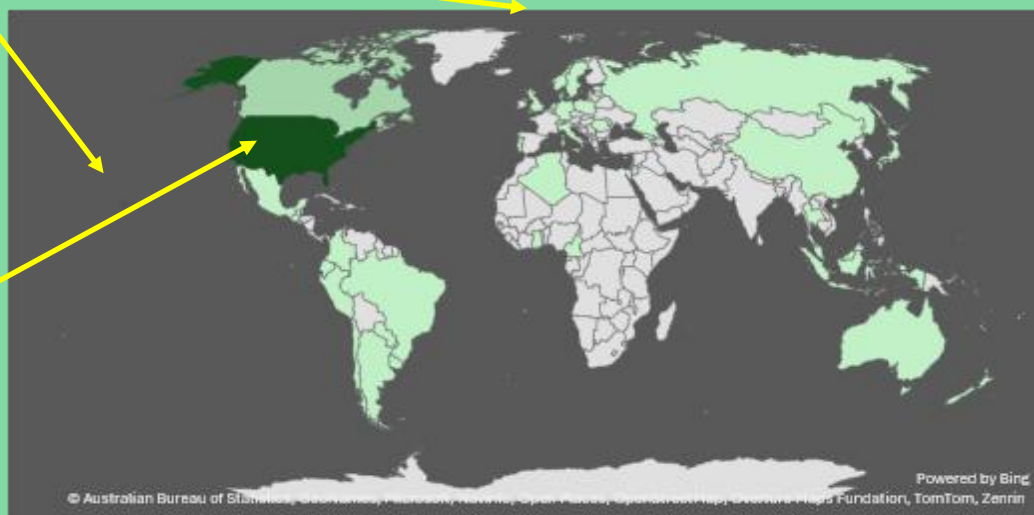

In 2025, Dr. Beau Brodbeck, host and visionary behind the TREE Fund Webinar Series, received TREE Fund's Ken Ottman Volunteer of the Year Award for all his hard work with the series and on TREE Fund's Board.

Tour des Trees 2025 Recap

The 2025 Tour des Trees showed all the beauty that the State of Michigan had to offer to cyclists and tree enthusiasts alike. During this year's campaign, our riders and ride sponsors- with additional help from 16 participants that participated in our Virtual Tour des Trees, tracking their miles from the summer from home- were able to raise over **\$361,100** for TREE Fund!

This year's event featured 60 riders traveling over 420 miles in five days. TREE Fund and the Tour des Trees riders were able to interact with groups all over the state and spread the word about TREE Fund, its mission, and the importance of tree research. This included five tree plantings, three professional learning events, six youth presentations from rider Warren Hoselton's alter ego, Professor Pricklethorn, and meetings with several local groups including West Michigan Trails and various local volunteer organizations (Lions Clubs, Chambers of Commerce).

In addition: In 2025, TREE Fund received donations from 1,003 individuals and organizations between \$1 and \$499. Thank you to all who made a contribution!

Questions & Answers

Q. Who runs TREE Fund?

A. TREE Fund is governed by its volunteer board of trustees, the members of which are elected by the board. The board sets high-level policy and strategic plans to achieve TREE Fund's mission. TREE Fund is directed by a staff of paid, nonprofit professionals who advise the board, implement the board's directives, and manage day-to-day operations.

Q. Who serves on the TREE Fund Board of Trustees?

Traditionally, the board has been composed of arboriculture professionals, researchers, and college-level educators. In recent years, TREE Fund has recognized the wisdom of greater diversity and joined the nonprofit movement to recruit trustees from beyond the traditional groups. The chief criteria are now an ability and willingness to advance TREE Fund's mission and a preference and capacity for high-level, strategic thinking.

Q. How is TREE Fund funded?

Charitable donations and the investment earnings on endowed funds; the endowments were created by charitable donations.

Q. Am I able to make a donation through my charitable trust?

A. Yes, you can name TREE Fund as the beneficiary and set up an annual donation.

Q. Are donations to TREE Fund tax deductible?

A. Yes. TREE Fund's tax ID number is #37-1018692

TREE Fund is a 501(c)3 nonprofit whose mission is to support scientific discovery and dissemination of new knowledge and best practices in the fields of arboriculture and urban forestry.
